SOME REVIEWS OF JUST MARRIED COUPLES...

"Justine was amazing! She helped us plan what was truly the absolute best day of our lives, and was great to work with from beginning to end. She is super organised, which helped me so much in feeling calm and relaxed ahead of the big day, and she thinks of absolutely everything meaning all you need to do is enjoy the whole process! She really helped me realise my vision with flowers, music, food etc, and from the smaller details right up to the big ones she was there every step of the way, with a great can-do attitude. We could not have done it without her!"

MARTHA & DAN ALICANTE

"...All we knew is that we wanted to put on a weekend in Barcelona that we, and our wedding guests, would never forget. Justine was exactly who we needed and we were so lucky to find her. Her knowledge, experience, attitude & attention to detail were astounding...I could easily write a thousand words on how brilliant Justine is, how no request is too big, how no challenge too difficult and how no plan too complicated...."

DARRELLE & BEN BARCELONA

"Justine was amazing as our wedding planner, we couldn't have done it without her. A great combination of calm / fun, whilst also being incredibly organised and prepared. During the lead-up to the wedding, she was always collaborative and flexible, suggesting things but never pushy about it. In the days prior to the wedding she handled so many last minute things for us that we didn't forsee and solved a lot of unexpected issues for us. And on the wedding day itself she effortlessly handled all of the individual vendors, and organised the best man and bridal party so they always knew what to do. My best man swears by her! He was able to be calm on all the announcements and speeches because Justine always guided him for the flow of the day. It's testament to Justine that the day flowed so well and the guests were never bored, and always taken care of."

THE PROCESS

(1) NICE TO MEET YOU

We begin with a conversation to explore your vision, ideas, and expectations. During our call, I will walk you through the details of the service best suited to you, along with my approach and way of working. Once you have had time to reflect and feel confident we are the right fit, we can move forward together.

(2) SAVE THE DATE

Your chosen service and fees are confirmed, and I will provide my terms and conditions along with the invoice for the first instalment. Once everything is formalised, your wedding date is officially secured in my calendar.

(3) TELL ME MORE

This is where we take a deeper look at your vision, budget, aesthetic preferences, and practical requirements. These details form the foundation for the venue search and the creation of your initial wedding design.

(4) YOU'RE BOOKED

With your venue secured, we move into booking your selected vendors over the months that follow. During this stage, the wedding design is refined and thoughtfully developed. As the celebration approaches, we finalise floor plans, seating arrangements, menus, and all remaining details.

(5) THE WEDDING DAY

The planning is complete, and it is time to enjoy the celebration we have so carefully prepared. I will be present to oversee every detail, ensuring the day unfolds seamlessly.

(6) AFTER THE CELEBRATION

As you relive the memories of your wedding and eagerly await your gallery and film, I will take care of final payments, returns of deposits, and any remaining details —bringing the experience to a thoughtful and polished close.

(Frequently)

ASKED QUESTIONS

(1) *What budget should we expect for a wedding in Spain?*

Every wedding is entirely personal, and there is no single “average” budget. Investment levels vary depending on location, guest count, style, and expectations. While some venues offer inclusive packages that can be more economical, couples planning a bespoke wedding with hand-selected suppliers should anticipate a starting budget of approximately €50,000+ for around 80 guests.

(2) *When is the ideal time to book a wedding planner?*

As early as possible. Securing planning support at the beginning of your journey allows for greater venue and supplier availability, stronger partnerships, and a more seamless, considered process. That said, support can also be introduced at later stages if needed.

(3) *How many weddings do you take on each year?*

I intentionally limit the number of full-service weddings I take on each year—typically five to six—to ensure every couple receives my full attention, care, and a consistently high level of service.

(4) *Which areas of Spain do you cover?*

I am based on the Costa Blanca and work throughout mainland Spain, as well as the Balearic and Canary Islands. This flexibility is particularly valuable for couples who know they wish to marry in Spain but have not yet selected a specific location, allowing the venue to lead the decision rather than geography.

(5) *When is the best time of year to marry in Spain?*

The most popular months are May, June, September, and October, when temperatures are more moderate and outdoor celebrations are generally possible. July and August tend to be extremely hot and humid and are usually not recommended unless work or travel constraints make them the only option. The cooler months can also be beautiful, though shorter daylight hours often mean incorporating indoor elements into the celebration.

(6) *Do you have a particular wedding style?*

My focus is not defined by a particular aesthetic. Instead, my priority is the overall experience—both throughout the planning process and on the wedding day itself. A seamless, well-orchestrated celebration creates the foundation for an exceptional experience. While design and aesthetics are important, they are always shaped around your vision rather than a signature style.
